

# Application for Webmaster of ESN Germany

## for the 2021/2022 Mandate

I hereby apply for the position of Webmaster of ESN Germany. The last mandate I focused mainly on establishing a solid ground for online NAs, which works now quite good. Unfortunately I had to postpone some things I promised, like the ESN Germany Wiki for that. I also put some effort to coordinate the development of the NA websites <https://onair2021.esn-germany.de> and plan to let create a template to use that website for all upcoming NAs. Another thing I did during my mandate was the organisation of the new ESN Germany Website <https://esn-germany.de>. I also created a section database for our VP to input all important information and give us a better overview. This, together with moving all our sections to a new server provider and recreate all section websites with the sections (thanks that it worked out quite well) were my tasks for the last mandate. And of course some Pretix things had been also on the agenda.

With the upcoming mandate I plan to documentate everything in the national Wiki, and try to convince the others to use the Wiki more often.

Best regards

Christian Gmeiner

# Curriculum Vitae – Christian Gmeiner

## Application for Webmaster of ESN Germany

### Personal Information

Name	Christian Gmeiner
E-Mail	christian@gmeiner.org
Nationality	German

### ESN Experience
