

Application as Event Manager of ESN Germany

Milan Grigull

Erkrath, 11th of January 2021

Dear Network,

I hereby reapply again for the position as event manager of ESN Germany.

I am total aware that the NB engagement should be limited to two mandates but I believe that there are valid reasons for an exception.

Beside the fact that my first mandate was just a few more than a transition period my second mandate happened, as you may have noticed, under very unpleasant circumstances, especially for an event manager.

Letting my first full mandate pass without seeing a single physical event taking place was far from my imaginative power when I applied one year ago and the plans I made last year became illusory.

Nevertheless I do not want to stand back and instead work the coming mandate on the reestablishing of our physical events.

This year might be as challenging as the passed and we will still face a lot of problems in various fields, particularly with regard to recruiting (on local as national level) and knowledge transfer. I believe that physical events, which will happen again this year, have to play a major role in supporting our volunteers with opportunities to meet for trainings and to exchange practices and ideas while simultaneously maintaining our network spirit.

I am waiting for your questions regarding my candidacy and hopefully also your ideas and your engagement for the year to come. Please feel free to contact me in any convenient form.

Lots of love and stay save

Milan
